

Code snippet rendered with Consolas, a nice fixed-width font:

```
% a b pct -> return b percent of a  
% percentage of a given value  
/pct {  
  0.01 mul mul % example: 60 10 pct -> 6  
} bind def
```

The same technique can be used for any text with fixed line breaks:

*O thou dissembling cub! What wilt thou be,
When time hath sowed a grizzle on thy case?
Or will not else thy craft so quickly grow
That thine own trip shall be thine overthrow?
Farewell, and take her, but direct thy feet
Where thou and I henceforth shall never meet.*
